The C. P. R. Coal on Fire.

PORT ARTHUR, Dec. 4.—Yule tide smoke was seen issuing from a great pile of coal belonging to the C. P. R. lying on the dock beside the elevators at Port Arthur. It contained 50,000 tons. All efforts to quench the blaze have proven futile.

An Inspector of Four Per Cent.

WINNIPEG, Dec. 4.—It is understood that Mr. E. Munton, registrar of the Surrogate court under the Norway Government, has received the appointment of Inspector of four per cent. beer for the Northwest Territories. His headquarters will be in Winnipeg.

C. P. R. Stock Seized for Taxes.

PORT ARTHUR, Dec. 4.—Considerable excitement was caused here today when a bailiff, at the instance of the tax collector, seized a locomotive and seventeen cars, the property of the C. P. R., for taxes due the town by the Company. The question of taxes between the town and the Company has been in dispute for years and the taxes have not been paid and now amount to \$15,000.

Alleged Interview With Sir John.

OTTAWA, Dec. 5.—Sir John Macdonald, in conversation with J. Knowles, mayor of Prince Albert, who left for home last night, is reported to have said that the Americans would not grant unrestricted reciprocity and that he expected to see the motion in congress in that direction voted down in a few days. Also that the National Policy is a fixed fact, and that when it fails annexation will follow. Mr. Knowles replied that in that case the Premier might some day expect this alternative in the case of the Northwest.

The Coming Ontario Elections.

TORONTO, Dec. 5.—Hon. O. Mowat spoke at Woodstock Wednesday night, and during the next few days he will hold four meetings in Oxford, which is his constituency. This, taken in connection with the rumor that the Ontario elections will soon be held, looks, to say the least, significant. During the next ten days Liberal Conservative conventions to select candidates for the Ontario legislature will be held in East Durham, West Huron, South Wellington and South Ontario.

An Inter-Colonial R. R. Explosion.

MONTREAL, Dec. 4.—The heating apparatus in the Pullman car of the Inter-

colonial express burst and blew out the whole end of the car. A porter named Puhoro was severely injured and taken to the general hospital.

A Sad Tragedy.

HALIFAX, N. S., Dec. 5.—Philip McInnes, of Pictou, an Intercolonial brakeman, fell from the top of a train; both legs were taken off. He died two hours later in terrible agony, having received no medical attendance.

Radical Programme in England.

MANCHESTER, Eng., Dec. 5.—The Liberal federation approved a resolution to demand urgency at the coming session of parliament for the bill embodying the "one man one vote" principle. Resolutions were also adopted as follows:—For shorter duration of parliament; to reduce the qualifying period of residence for voting to three months; for compulsory powers to acquire allotments; for the abolition of duties on tea, coffee and cocoa; for a direct popular vote on the liquor traffic question; and for the disestablishment of the Church of England.

Alleged Interview With a Dominion Official and Governor Royal.

OTTAWA, Dec. 3.—Lieutenant-Governor Royal had an interview with Lord Stanley in his office in the east block yesterday. Beyond talking over how affairs respecting the deadlock stood, nothing definite was arrived at. A head official of the Government, who no doubt but utters the sentiments of the Ministers, said that Mr. Dewdney's bill, too late for passing last session, would be introduced next session, and some of the amendments desired in the memorial to His Excellency would be embodied in it. There was no doubt, he added, but Royal had a right to dispose of the Dominion grant, over the distribution of which the Assembly had no control, but, continued he, what the leaders want is responsible Government, a thing which they cannot have; the country is too sparsely settled, expenses would be enormous, and the people don't want it. Those wanting offices, said the official, are heading the agitation. While the advisory board had no powers, still members there might be of great assistance in advising the Lieut.-Governor who, no doubt, would carefully consider all recommendations made to him. Royal said that the trouble was a mere nothing in the Northwest, although exciting much attention down here. He had no doubt but those who viewed the matter differently from himself were equally conscientious.

Burned to Death.

GANANOQUE, Ont., Dec. 6.—The dwelling of John Modler, a farmer of the 3rd concession of Lanstowne, South Leeds, burned last night, and Modler lost his life.

Abneria Officials in Winnipeg.

WINNIPEG, Dec. 6.—Sheriff King and policemen Macdonald and J. Dutham arrived here yesterday from Calgary with a youth named William Ringer, who has been sentenced to two years and three months in the penitentiary for larceny.

Meeting of Dominion Cabinet.

OTTAWA, Dec. 7.—A meeting of the Cabinet was held yesterday at Earncliffe, Sir John Macdonald's residence. It lasted until well on into the afternoon. Mr. Celly has issued his address to the electors of Stamboul.

That Ottawa Movement.

OTTAWA, Dec. 8.—Mrs. Colin Campbell, wife of a prominent official in the militia department, has gone to Le Port, Mass., with Fred O'Connor, lieutenant in the Princess Louise dragoon guards. Campbell was ill at the time of her wife's departure, but was aware of her intention and pleaded in vain to dissuade her from accompanying O'Connor.

Reported Tariff Changes.

OTTAWA, Dec. 4.—It is stated here, on good authority, that the Government have decided to abolish the duty of 23½ per cent. on mining machinery and also on coke. The decision was arrived at last week, regardless of the representations of the British Columbia visitors. Other sweeping changes in the tariff next session are promised.

Another Grand Trunk Accident.

ST. CATHERINES, Ont., Dec. 6.—An accident occurred on the Grand Trunk Railroad, six miles east of here, yesterday evening, resulting in the death of one man and the injury of four others. The man killed was named Nixon of Hamilton; the injured are Martin Allen, Hamilton, left leg broken; William Dray and Thomas McKenough, Hamilton, badly bruised about the legs; William Highland, Hamilton, back sprained.

Lepine Hopeful.

OTTAWA, Dec. 6.—Ambrose Lepine says he has every confidence in Mr. Chapleau aiding him, and with that and promises made by Sir Hector he feels pretty certain to succeed in getting his land restored and money compensation for his losses besides. If not, he would likely wait to see what could be done during the

session. Lepine said the Metis had many grievances which required remedy. Among Frenchmen at the hotel Lepine is looked upon as a hero.

The Rector Refuses.

HAMILTON, Ont., Dec. 9.—R. H. Crawford, rector of the Church of the Ascension declines to accede to the request of the congregation to discontinue certain ritualistic practices.

Death from Exposure.

MOOSE JAW, Dec. 9.—A farmer living twelve miles southwest from here was found dead in his house yesterday. A coroner's jury brought in a verdict of death from exposure.

Another Northern Pacific Line.

MINNEAPOLIS, Dec. 9.—The Northern Pacific people have purchased the bridge over the Red river at Emerson, and propose to build a line from Red Lake, Minn., to Emerson, which will shorten the distance between St. Paul and Winnipeg by over 40 miles.

Died of His Injuries.

TORONTO, Dec. 9.—Edmund Fitzgerald, a boy who was mangled on the Grand Trunk tracks at Chatham the other day, is dead. He was several years in the civil service at Ottawa, English by birth and the grand nephew of Cardinal Manning.

Those Medals.

WINNIPEG, Dec. 9.—The district medals of the Manitoba branch of the R. C. C. have been received and will be forwarded at once to the different district branches for competition. There are in all ten districts, as follows:—Kewatin, Winnipeg, Rockwood, Pembina, Portage la Prairie, Brandon, Qu'Appelle, Calgary, Alberta and Saskatchewan.

M. R. O'Loughlin has been elected president of the Northwest Commercial Travelers' Association.

A Vain Search.

QUEBEC, Dec. 9.—All hotels, boarding houses and places of questionable repute in the city have been searched by detectives and reporters within the past few days for the Washington defaulter, Silcott, and his companion, Hermine Thibault, but without success.

Kingston to Zanzibar.

KINGSTON, Ont., Dec. 9.—On Friday the staff and cadets of the Royal Military College, sent a congratulatory message to Lieut. Stairs, Stanley's brave aid, to await his arrival at Zanzibar. This morning an answer came: "Thanks, comrades."

The Mounted Police Transferred to the Railway Department.

OTTAWA, Dec. 9.—An order-in-council appears to-day transferring the control of the Northwest Mounted Police department to the Minister of Railways and Canals, the Premier's new portfolio. The Government are still preparing the C. P. R. to select the remaining portion of their land grant. It is not done soon, the Minister of the Interior says the department will have to do it for them. There are between six and seven millions of acres not selected by the company.

Mayor Clark for Third Term.

TORONTO, It is about definitely announced at last that Clark will run for Mayor. The only other candidate yet in the field is John McMillan.

John Gillies, late Liberal member for North Bruce, and police magistrate for Saint Ste. Marie, died after a long illness of Bright's disease yesterday.

A by-law was passed to-night for improvements which will necessitate the demolition of the Globe newspaper building.

FORGIVEN.

Stanley Reaches The Coast.

ZANZIBAR, Dec. 6.—Stanley has arrived here.

Gone Over to the Majority.

DUBLIN, Dec. 7.—Captain Plunkett, the chief of police of Cork, is dead.

Emin Pasha Likely to Die.

LONDON, Dec. 7.—William Lehmann Burdett Coutts, M. P. for Westminster, has received a telegram from Stanley saying Emin Pasha is in a most critical condition. In addition to other symptoms menacing his life, he says there is a flow of blood from his ears, which the doctors are unable to check. Dr. Parke has still some hopes of saving his life but the German naval surgeons at Bogamayo do not share his hopeful feeling.

The Peters' Massacre Confirmed.

ZANZIBAR, Dec. 6.—Emin Bey is still in a dangerous condition. Symptoms of long trouble have developed. Telegraphic congratulations have been received by Stanley from Queen Victoria and the Khedive. At divine service on board the Turquoise, Stanley briefly addressed the crew. He declared his belief that the mantle of Livingstone had fallen upon

his shoulders. His mission has now commenced. To it he would devote the remainder of his life.

Confirmation of the massacre of Dr. Peters and his party has been received. The camp was surrounded by 1,200 Somalis and attacked at midnight. No one escaped.

Death of the Great Oarsman.

LONDON, Dec. 9.—A dispatch from Adelaide, South Australia, announces the death to-day of Henry M. Searle, champion oarsman of the world, of typhoid fever, after a short illness.

Four Thousand For Prize Fighters.

FARGO, N. D., 7.—The Dempsey athletic club to-night decided to offer a purse of \$4,000 for a fight to a finish between John L. Sullivan and Peter Jackson, and notified Sullivan of this action.

Mourning for Jefferson Davis.

NEW ORLEANS, Dec. 7.—The death of Jefferson Davis created a profound sensation in this city and was immediately telegraphed to all the leading cities of the south. The body will be in state until next Wednesday, when the funeral will take place. Preparations are being made on a most elaborate scale and the funeral will be the grandest demonstration of love and reverence to any American citizen ever held in this country. The Governor has already received numerous telegrams from all sections of the South who will be here to participate in the demonstration.

A Newspaper Man Meets Stanley.

NEW YORK, Dec. 4.—The Herald commissioner has sent the following despatch: "Nassau, Nov. 29, 5 p. m.—Have just met Henry M. Stanley, Emin Pasha, Cassel, Lieut. Stairs, Mr. Jephson, Dr. Parke, Nelson and Bonny and 500 men, women and children. I found Stanley looking exceedingly hearty."

Emin Pasha Likely to Die.

ZANZIBAR, Dec. 6.—After enduring the hardships of many years' residence in the interior of Africa, and the fatigues and dangers of his journey to the sea, it has been the fate of Emin Pasha to receive an injury which is likely to result in his death. The Pasha is very near-sighted and habitually wears glasses. Yesterday he attempted to go about without them and unconsciously walked out of a window, falling some distance to the ground. He was picked up and conveyed to the house, when it was found he had sustained a fracture of the skull, which all the doctors of Bogamayo, except Stanley's own, proclaim fatal. Stanley's opinion of his colleague is that Emin is in a very critical condition, but he expresses the hope that he may be able to save his life.

A Serious Accusation.

MINNEAPOLIS, Minn., Dec. 9.—Charles Ostrom, cashier and book keeper of the Minneapolis office of the St. Paul Pioneer Press, is under arrest, charged with a defalcation of \$2,000. It is suspected he set fire to the Tribune building, hoping to destroy the books, which contained evidence of his guilt.

Killed by the Electric Wires.

NEW YORK, Dec. 9.—Another death by contact with electric light wires occurred to-day. Peter Clasen, employed as a fireman, climbed a pole to do some repairing. A few moments later, a little girl playing on the sidewalk heard a hissing noise above her, and looking up saw Clasen lying across two wires, with a bluish light shooting from his right hand, and his head. Several policemen soon arrived, and set about the task of extricating Clasen's body from the wires. Thomas Smith, a driver, who had gone to the aid of the officers, touched the body, and received a shock which knocked him senseless.

The Anthracite Coal Co. Deal.

EAU CLAIRE, Wis., 9.—Frederick J. yer Hauser, Rock Island, lumberman, was here to-day. He said he thought the deal was off in regard to the lands of the Canadian Anthracite Coal Co., which were to have been sold to an English syndicate, Clipperton Valley Lumbermen and 8000 rail railway men are included in the syndicate. They sent an expert to examine the company's lands in Alberta. His reports showed there was coal coal there to last 200 years, and it was the intention of the syndicate to mine 100 tons per day. The price asked by the company was £300,000. The Englishmen offered \$170,000, but it was refused. They had an option on the plant of the company, and had paid \$3,000 on it, but the \$3,000 had been paid in such a manner that the deal dropped the company would not set it.

DR. CLARK'S
WHITE LINIMENT,
The Best Stable Liniment
in the World.

A Word About Fences.
It is not practicable to give advice about fences that will apply equally well to all sections. The question, "Which is the cheapest fence and the one best adapted to general use?" is answered in various localities in various ways. There are still a few districts where the old fashioned rail fence is yet in use, and doubtless for the reason that it is deemed as cheapest for that neighborhood. Posts and rails are but another form for a rail fence. Near by in the same vicinity the common board fence will be in use for the same reason. Wire fences are quietly making their way into use and are effective in turning stock, but when broken are a little difficult to repair and the bars frequently injure animals.

An osage hedge has both good and bad points. It is quickly grown, is effective in turning stock, it attracts and affords a refuge for birds, which are useful in destroying insects, protects stock to some extent from the heat and cold, and if properly cared for and pruned is a beautiful thing in itself. Besides this it is cheap and durable. On the other hand its rank growth and spreading habits make it objectionable to many, and unless one is determined to keep it within proper limits and willing to devote the time and labor necessary for keeping it in good shape its use is not advised.

White Clover as a Pasture Plant.
White clover is a useful plant, relished as it is by cattle and hunted by bees. It is a frequent constituent of the best pastures in Great Britain and Ireland. It is also one of the leading species in the pastures of North Germany. It is a most excellent plant in low land pasture. While it is true that it does not produce so much herbage as red clover, it is, on the other hand, richer in nutritive ingredients. It grows spontaneously in all good pastures, and its presence is an indication of the good quality of the soil. Where the soil is suitable good clover spreads so rapidly that comparatively little seed is required.

In hard, thin soils the plant is generally small, but in a soil adapted to it, white clover soon spreads and covers a good deal of space. Its dwarf character and the difficulty with which it is cured, causes white clover to be esteemed as a pasture grass rather than for hay. As a pasture plant it endures more grazing than the other clover.

White clover is often sown with some of the finer grasses for lawns. It is a well known and highly prized bee plant, although the season is often a short one, especially if hot, dry weather comes on early. Almost the sole objection urged to white clover is its effect on horses during the maturing of the seed. It makes them slobber. The flower is excellent during most of the season and cattle are very fond of it. White clover furnishes a large amount of highly nutritive material. It has more protein and more fat than red clover. This, together with its property of thriving under close and continuous grazing, renders it, as has already been stated, an excellent pasture plant.

STRAYS.

\$10 REWARD.
STAYED about three months ago, one Roan Mare 4 years old with halter on, branded C on left shoulder H on left jaw, inverted H on X on his high up, also other brands. Supposed to have strayed south of Macleod. The above reward will be promptly paid to whoever will give information that will lead to the recovery of the mare. Address P. D. Hadley, Ranch, care of H. Clark Esq., Sheep Creek. 4-5

STAYED into my hand on Kneehill Creek, on or about the 25th of April last, one black mare, brand bar JC on left shoulder, bar VQ on left hip, also one bay colt 1 year old, gentle, no brand. ANOTHER NEW CHURCH.

The Presbyterian Church of High River Dedicated.—A Progressive Settlement.

The High River Presbyterian church, in the Dunbow settlement, was opened with the usual ceremonies on Sunday, Dec. 1st, by Rev. Mr. Herdman of Calgary. The services were at 11 a. m. and 3 p. m. Those of the morning were conducted by Mr. Herdman, unassisted, the attendance being very large. The afternoon services were shared by Mr. Herdman with Rev. Mr. Hilyer, Methodist Minister. The two reverend gentlemen delivered addresses, instead of a sermon, to the largest body of people who have thus far assembled in that locality to participate in religious exercises. It is pleasant to be able to record the fact that the church was dedicated free of debt. The energy with which the erection of the building was pressed forward shows the character of the congregation. Not three months have passed since the intentions of the people took shape, and the whole of the work was executed in two months, the lumber-hauling, carpentering and other work being all done within the congregation. The building is 20x30 feet, with a vestibule, and has in cash and labor cost about \$700, of which \$125 was a contribution from the Church and Manse Building Fund of the Presbyterian Church of Canada. It is the intention of the managers to add sheds for the accommodation of teams, etc. The energetic building committee is composed of Mr. D. Thorburn, chairman, Mr. Blackwood, secretary, and Messrs. Shields, Stewart and Parker McKenzie. The site, on a hill, is most commanding, being at the mouth of High River, near its junction with the Bow, and the church can be seen from every side for a long distance. The Rev. R. A. Munro, ordained missionary, will have the care of the congregation, his supervision including the High River, Pine Creek and Sheep Creek districts. It is but proper to state that all denominations were represented among the contributors to the building fund and in the large body of attendants at the opening exercises.

The Dunbow settlement is a typical Alberta settlement, and its rapid progress illustrates the speed at which certain parts of the district are filling up. Three years ago a few pioneers, mostly bachelors, had made homes there. The families, and what may be spoken of as the church-going people, have nearly all come in during the last eighteen months, many within the last two months. They come from Scotland, England and Eastern Canada and are understood to be away above the average in intelligence and industry. They have already a school house (this independent of the Industrial School located at High River), in charge of a well qualified teacher, Miss Maxwell, and now this new edifice will afford another rallying point for the settlers and for the promotion of the spiritual and intellectual improvement of the district.

Midnapore Notes.

Threshing is still going on apace, and considering the drought of the past season the crops are turning out very well. The yield of oats will average about 30 bushels to the acre; barley somewhat less. The wheat is generally a splendid sample, and with few exceptions shows 30 bushels to the acre.

The school house is now painted; the color chosen is white. An acre of land surrounding it is also fenced off.

The woolen mill is nearly ready to start, an additional building 34x20 feet having been erected for dyeing, washing, and fulling purposes, and also to accommodate the engine and boiler. A start will be made this week on blankets, followed by flannels, shirtings, towels, overcoatings, as may be demanded.

Mr. W. H. Dyson is now back from his trip to the east and is busy putting the finishing touches to the mill here. He intends building a house here in the spring.

Mr. D. Scott who came here the last summer, is so pleased with the country that he intends sending for his wife and family and permanently locating here.

AND ALBERTA LIVE STOCK JOURNAL.

Published every Wednesday at noon at the office of the Herald Publishing Company (Limited), Stephen Avenue, Calgary, Alberta. Subscription \$2 a Year.

Advertisements for transient advertising:—15 cents per line of nonpareil for first and 10 cents for subsequent insertions. Professional cards one inch per annum \$12; ranch cards as announced on last page. Special contract rates on application.

Advertisements to secure insertion in the WEEKLY HERALD AND ALBERTA LIVE STOCK JOURNAL must be handed in at the office before 6 p.m., Tuesday evening.

Single Copies 5 Cents Each.

The WEEKLY HERALD AND ALBERTA LIVE STOCK JOURNAL is the weekly edition of the Calgary Daily Herald. It is distinct from Wednesday's issue of the DAILY HERALD, thus allowing of a perfect arrangement of matter impossible with those so called weekly papers which take the place of the Daily issue upon the day they are published.

JOHN LIVINGSTON, Manager.

WEDNESDAY, DECEMBER 11, 1889.

CALGARY'S PROGRESS.

If the erection of substantial and in many cases expensive buildings is any evidence of progress or of people's faith in the future of a town, Calgary must be regarded as moving fairly on a large measure of confidence. Six years ago there was no such thing as to-day Calgary has four thousand inhabitants, a satisfactory municipal system, and a full equipment of churches, schools, public offices, banks, streets, sidewalks, railway connection and electric lights. When in a year or two water works and sewers and street railways are added—and all of them are needed, some more than others—there will be no town in Canada better fitted to be the home of a prosperous and progressive people.

In evidence of what has been accomplished this year alone in the way of building, we have prepared a rough estimate of the values of new erections, and the statement will be found to be an encouragement to our townspeople as well as information for friends at a distance.

The Bank of Montreal has shown its faith in Calgary by erecting its own bank building, of native stone, of a style that may justly be termed elegant, at a cost of at least \$22,000. The Alberta hotel has been erected by two English gentlemen, costing \$36,000. Probably \$9,000 more will be required for furnishing, which will be complete by the opening of the new year. The Alexander block cost about \$16,000, the Loughheed block \$10,000, Lineham's block, say, \$3,500. They are all stone buildings. The Eau Claire Electric Light Co. have expended at least \$12,000 on works and plant, and the Calgary Electric Light Co. have expended about \$12,000 on their works this year. The Criterion cost \$3,500 and the steam laundry \$1,200. The Dominion Government has expended \$40,000 on the court house and \$25,000 on the new barracks. The new Methodist church has been erected at a cost of \$4,200, and the Church of England Parochial Hall cost \$1,500. The new Roman Catholic church will cost about \$50,000, of which \$17,000 has been expended this year. The town, in addition to its expenditure for streets and sidewalks, has spent \$1,000 on the market sheds. Many premises have been extended, as, for instance, the McNaughton block, on which at least \$1,000 was spent this year. The Agricultural Society this year spent \$4,000, or thereabouts, on their truck and buildings. Probably \$1,000 or more has been expended on extensions of the telephone system. In addition to all this a large number of private residences have been erected in the year. Mr. Hodder's three new houses on Osler street probably represent an expenditure of \$4,500 or more, and we have new residences erected by Messrs. Cameron, McKenzie, Parlow, Rogers and many others. The

list is too large to give in detail. In the neighborhood of Dewdney street alone the houses of this year are valued at \$6,000 to \$7,000. It is safe to affirm that the building operations of the year will foot up not less than a QUARTER MILLION OF DOLLARS,—and this is a pretty low estimate; and twenty to thirty per cent., if not more, may be added for furniture, etc. This is not bad for a town of the age and size of Calgary; indeed there are few towns in Canada can equal the record.

The beauty of it all is that there has been no "boom," no excitement of any kind or of any dimensions in real estate. The buildings have gone up to supply the legitimate needs of the community, and to-day more houses are called for. There is not a finished residence in Calgary vacant, scarcely an office that is not occupied or engaged. Here is a healthy state of things, comment on which is needless.

It is to be observed that the Canadian Pacific does not show up in this recital. All the improvements of the company are yet to come. This is one of the best features of the situation. There is no more sagacious railway management in the world, and in view of the large business which the company is handling in Calgary—a business far beyond the anticipations of the management—we may expect to find them erecting in Calgary one of the most extensive and ornamental of their passenger stations and freight houses. Not only so; everything points to the selection of Calgary as a Divisional point, which would mean the transfer of a large body of high-class mechanics to our town, with all that this implies.

Nothing serves to mark Calgary's steady progress better than the attendance at the public schools. The teachers find that a large number of people have come into Calgary during 1889, giving the usual increase in the number of school children. In the schools presided over by Principal Short there were at the opening of the year 160 children; to-day there are 240, and the accommodation is still so inadequate that a fifth teacher and a new school room are wanted immediately. Bishop Pinkham's parochial school, a seminary for young ladies, is being established to meet an urgent want; and, altogether, the pressure for additional educational facilities is great. Such facts tell the story of the progress of Calgary.

WANTED A MEAT CANNING INDUSTRY ESTABLISHED.

The ranchmen of Alberta will do well to give serious consideration to the subject of establishing here in Calgary, a meat canning industry on an extensive scale. It is true that the demand for cattle for the Mounted Police, the Indian Reserves and the people of the towns along the railway will constitute a local market of importance. British Columbia, too, will, in all probability, always look to Alberta for a large proportion of its meat supply, and the more the mineral development of the mountain region progresses the greater will be the call on Alberta for beef and mutton. In Eastern Canada, too, there will be a large and steady demand for Alberta cattle, both for local consumption and for export, and we may expect that the prices for our cattle in England and

Scotland, already reasonably satisfactory, will steadily increase as the quality of the animals is better understood and the requirements of that market are more carefully studied. In the matter of "dead meat" a large trade may also be looked for, the conditions being more favorable than those under which the Western and Southern States and New Zealand are conducting this business with England. Making allowance for all such considerations, the fact remains that the enterprising people of the United States have shown us a still more desirable method of dealing with our cattle and sheep in the meat canning industry. Those who desire to do so can readily inform themselves of the extent to which this business is carried on by such great houses as those of Armour and others in Chicago, and a study of the subject will suffice to show our ranchmen that by mutual co-operation they can easily find, through this means, a market for those animals which will not bring the highest prices as live stock or when marketed as dead meat. It is pretty well understood that the highest qualities of beef and mutton are not put up in cans, and that this method supplies an outlet for a large quantity of meat, which while being perfectly sound and good, is not marketable otherwise at remunerative prices. The demand for canned meats is steadily increasing both in Europe and America, and, as a correspondent of THE HERALD has pointed out, the firm of Armour, of Chicago, is supplying not only the people of England but the British army and navy with his goods in enormous quantities.

Of the extent of the market there can be no doubt. Of the value and profit of the industry as conducted elsewhere there is as little doubt. The remaining question is as to the probabilities of meat canning being conducted satisfactorily in Alberta. Contrasted with Chicago we have many advantages. The cattle are raised right here, and the cost of raising is less than anywhere else in the world. This is a most important consideration to start with. Then the animals will be slaughtered right at the ranches, as it were, whereas those slaughtered in Chicago are transported thousands of miles from their feeding grounds before being killed. All these transportation charges are here saved. The freight charges on the manufactured article will not be essentially greater from Calgary to Liverpool than from Chicago to the same point, if it is any greater; we will warrant that the C. P. R. will not say so to this statement. Labor will not be dearer here than in Chicago, while stockyards and byres and factories will be provided at less expense here than there. These are details which come within the domain of business men more particularly, but we venture to think these statements will not be seriously questioned.

If these propositions are reasonable, then, who so well situated as the ranchmen themselves to establish the industry? And if they are well founded why should Armour and the other United States houses be per-

mitted to monopolize the business in America when their market is found largely within the British dominions?

That Calgary would be the most suitable place for the headquarters of this industry is readily demonstrated. It is situated on the line of railway. It is accessible for all the great ranches, which are gradually moving north. If water power be needed it is here in abundance; if steam be needed, coal is very abundant and within a twelve month will be selling very cheaply. Labor can be had more cheaply here than elsewhere in the Territories, as workmen seek the large communities and prefer continuity to railways. We need not enlarge upon the entire probability of large tanning establishments, following the slaughter of so many animals, since the hides can be treated here, with hemlock bark so near at hand. All things considered, there can be no more eligible place than Calgary, and we shall be greatly surprised if the advantages which the town's situation and other facilities offer do not soon press themselves on the attention of capitalists in connection with the great and growing industry of canning meats.

OUR EMPIRE.

Among the speakers in support of Imperial Federation at a meeting held in the Mansion House, London, Nov. 15, were Cardinal Manning, Earl Rosebery, Earl Carnarvon, General Laurie, of Nova Scotia, and Mr. G. R. Parkin, of New Brunswick. There was much brilliant talking, some of it away up in the clouds. The most practical speech was that of Mr. Parkin, who has just returned from a trip through the Greater Britain of Australasia and the East, where he has been doing missionary work in behalf of the Imperial Federation idea. His speech, describing the vast extent of the Empire and its wonderful variety of resources, will be read with pride and pleasure wherever a British subject is to be found. Among the important statements of his address is one to the effect that English capital to the extent of £300,000,000 has been invested in the Australasian colonies. Mr. Parkin enlarged on the commercial advantages of Imperial Federation; but just here is the difficulty. If the commercial side of the proposed Imperial Federation were settled, all the rest would quickly follow. An import duty of five per cent. on foreign products entering the ports of the Empire would give colonial cattle, horses, wheat, cheese, butter, cotton and a thousand other colonial products the control of the markets of the United Kingdom, while English and Scotch manufactures would shut out all foreign manufactures from the colonies. But it will take a long time to bring the people of England to return to a protective policy, however moderate or however necessary as a means of securing Imperial Federation. Meantime all friends of this great national scheme will find their faith confirmed by Mr. Parkin's recent deliverance on the question.

Lord Rosebery is one of the fathers of Imperial Federation, and here is his idea of what it is to be, at least in its earlier stages:—

Where, then, asked the speaker, shall be sought the practical and real form of Imperial Federation? In nothing else than the periodical renewal of the Colonial Conference of 1887—a Conference which really inaugurated Imperial Federation.

There are, however, these necessary conditions:—

1. The Councils must be periodical.

2. They must be composed of the best men available in the Colonies and Mother Country, and be invested with all the dignity and authority of which this Empire is capable.

3. Their task must be the production not of statutes but of recommendations.

Regular Consultative Colonial Councils are, in short, to mark the next step forward. As to the subjects for discussion, here are a few:—

1. Imperial defence.

2. Postal and telegraphic arrangements.

3. Social problems, in the discussion of which the Mother Country may learn from the Colonies, and the Colonies from the Mother Country.

The recommendations of so representative a body could not be ignored, and as for its practical issue, it is only through the medium of such a business Conference that any closer scheme of Federation can come about. (No such scheme is in time evolved, "then you may be perfectly certain that, whatever your views and whatever your exertions, Imperial Federation in any form is an impossible dream.")

Colonial conferences to discuss postal and telegraphic matters are all right, but where does the increase of commerce come in?

The Montreal Star thinks Mr. Martin's scheme for managing all Northwest matters from Winnipeg, the proper caper. The extent and variety of Canada's Northwest possessions are still but dimly understood in the east. The special interest and conditions of the several Territories have apparently no special meaning for the eastern mind. The prevailing idea is that there is a broad, big country out here which is troublesome to govern from Ottawa, and that the governmental expedient which promises the most relief to Ottawa is the best to adopt in dealing with the Northwest. This is not the sentiment of Ottawa, where the magnitude and special interests of the Territories are fairly well understood, but the average eastern mind has thus far failed to grasp either the extent of the resources of the country or its claims to serious consideration.

A DEAD MEAT COMPANY.

The prospects of "The Canadian (Imperial) Meat Co., Limited" has been somewhat improved, authorized share capital £250,000, of which it is proposed to have £100,000 present £300,000. Among the directors are Sir W. T. Martin, Bart., and Admiral Inglefield, and a North American station, including Canada. The board of management in Canada is composed of Sir Hector Langevin, Telephore E. Normand, Mayor of Three Rivers, Quebec, and Eugene Prosper Bender, C. E., Montmagny, Quebec, who will join the board after allotment. The objects of the company are "to acquire a concession by the Corporation of the Three Rivers City, Canada, of one hundred acres of freehold land within the city's limits, subject to the erection thereupon of abattoirs and other buildings at a minimum cost of £30,000, and which land, with all buildings thereon erected, or to be erected, is to be free of all taxation for a period of 99 years, so long as the works are in operation, to purchase live-stock, and to kill and dress the same, for shipment or otherwise, on the Company's premises, which are adjacent to the seaboard, and where the hides, horns, offals and other remains can be advantageously utilized. Three Rivers City is over three hundred miles nearer to England than is New York." The estimated annual profit of the company is £142,016. The figures by which this is reached will interest Northwest cattlemen. We quote for their information:—

The population of Canada is about 5,000,000, half of whom are con-

Agents Wanted for the Calgary District

Midnapore Woollen Mill.

To the Editor of the HERALD.

SIR.—A letter under the heading "Industries of Calgary," signed "Bystander," appears in your weekly issue of the 4th inst. Amongst the industries quoted as desirable is a woollen mill. Evidently "Bystander" is either unacquainted with what is going on in the neighborhood, or he chooses to ignore the fact that there is a mill, on the eve of commencing work within eight miles of the town, which mill is capable of working up all the wool at present grown in the district. The mill was erected at Midnapore from motives of economy, as it can be run at less expense in the country than in town, and I think that the Council, in refusing any bonus, was acting in the interests of the town, if they felt certain of its erection, bonus or no bonus, for a mill at Midnapore is in reality as beneficial to Calgary, as if erected there, because, in any case, all its supplies come from thence. The question is not exactly as your correspondent shows it. We ship wool to the east, it is true, and we bring back blankets and cloth, but they are made of a different grade of wool. The wool of which the blankets now imported are made costs, when the grease is extracted, about half the price the Alberta wool does in the same condition. Further, in the imported goods is also brought a quantity of shoddy (that is, woollen rags torn up) in variable quantities; in very few cases less than 25 per cent., and in some instances as high as 55 per cent.

The woollen mill is now ready, and the engine to run it is to-day being fixed; so most probably in a week's time, Alberta can have blankets, flannel, tweed, or yarn of her own wool, if she desires. It is possible, that some people may prefer the shoddy goods at low prices, but at all events those who prefer a good serviceable article will be able to obtain it.

Yours truly,

S. W. SHAW.

Midnapore, Alberta, Dec. 6, 1899.

Pine Creek Moving.

Next Monday night is "hat night," at the meeting of the Pine Creek Literary Institute. The programme is as follows:—The members being assembled a hat is passed around and into this is dropped by each member a slip of paper on which is written a subject for discussion. The hat having completed its rounds, the slips of paper are all mixed together; the hat again goes round and each member draws a slip, and the subject named on the slip is the subject on which he is expected to address the assembly for five minutes. The Pine Creek people are setting a good example to some other places. Their Literary Society has arranged for a course of lectures extending through the winter months, and from what we hear of the subjects and the speakers the course will be a good one.

Experimental Farms.

The Prince Albert Times is advocating the establishment of experimental farms at Prince Albert and Battleford. The Times is an able champion of the local interests of its district, besides being a readable newspaper, well adapted for circulation in any part of the Territories. Its presentation of the claims of the Saskatchewan district reminds us that THE HERALD has repeatedly urged the establishing of an experimental farm in the vicinity of Calgary. In fact, there is such a variety of soil and climate in the Northwest Territories and the area is so immense that several such farms are called for and, doubtless, they will come in time. The sooner they are established the better for the early and rapid settlement of the country.

A Creditable Showing.

Of the Assiniboine reserve, Mr. Malcolm McMillan, of Raven Lake, Man., writes in satisfactory terms to the Free Press. He says:—"I counted 53 houses and 31 stables which I inspected inside and out, and all of which were clean and neatly built, while a good many had a fine pile of wood home for the winter. I then took a look around their farms which when put together amounted to 277 acres all ready for next year's crop. They are all fenced off in nicely laid off fields varying from 10 to 30 acres. The plowing was exceptionally well done, being much better than that done by a great many white settlers. They also had a fine herd of cattle, numbering about eighty-three head, together with forty fine looking sheep. Some had pigs and poultry that would compare favorably with any I saw during my trip. They also had a fine stock of hay, fully 300 tons, well stacked and protected by good fire guards. I think after seeing it you could not help saying that it reflected great credit on Mr. W. S. Grant, their very efficient and courteous agent."

New Bridge over the Elbow River.

[An influential meeting was held last week in the old town hall, Calgary, to consider the advisability of constructing a new bridge across the Elbow River adjoin-

ing the grounds of the Agricultural Society, and making a new road therefrom to connect with the McLeod trail. Amongst those present were Dr. N. J. Landsay, (in the chair) Messrs. John Lineham, M.L.A., W. F. Orr, I. S. Friesse, W. L. Bernard, (acting secretary), J. C. Child, Joseph and James Bannerman, A. Carney, J. McNamara, S.A. Ramsey, P. A. Prince and James Reilly. The minutes of a former meeting having been read, Dr. Landsay explained the object of the meeting and Messrs. Child and Prince having expressed their opinion on three sites submitted, it was resolved after some discussion that the site immediately at the side of the agricultural grounds be selected, and that the committee appointed at a former meeting do take all necessary action to carry out the matter.

Exchanges permitted. These Celebrate purchasing can ascertain of having the genu-

Mining Machinery.

An Ottawa despatch to the Victoria Colonist says: "The Cannery delegation interviewed the Premier today, and urged that mining machinery be allowed to enter duty free. Sir John said it would be necessary first to specify the kind of machinery to be brought in, as by a strained interpretation of the present law even a tenpenny nail could be classed as mining machinery." A telegram in today's HERALD states that the Dominion Government, before the British Columbia delegates appeared on the scene, had decided to remove the high duty on mining machinery. We hope the report will prove true. The duty is certainly a severe addition to the other burthens under which the mining interest suffers. There are lying in the Calgary railway station grounds two car loads of machinery imported from England costing \$12,000, on which the duties amount to \$4,000. When the cost of transportation from England to the mountains is added to first cost and duties, the difficulties which beset the mining interest will be understood.

Duties on Mining Plant.

Among the requests preferred by the British Columbia delegation who went east, is that the Government will remove the duty from mining machinery imported into the Province. There can be no doubt of the desire of the Government to encourage the development of the mining wealth of the Dominion, and as this claim of British Columbia will be re-echoed throughout Canada, the Government should give it serious consideration. The abolition of the duty would be a practical act of encouragement, especially as the machinery is very expensive and the cost of transportation into rough districts in the interior is always excessive. It is plainly the duty of the Government to foster the mining industry by reducing, at far as possible, the burden imposed upon it, of which these duties are among the most serious; especially when no Canadian industry is injured by so doing. The most expensive mining machinery is not manufactured in Canada, and in these days mining operations cannot even be successfully commenced without the assistance of all the latest and most approved appliances, which are yearly becoming more elaborate and expensive. If mining development is to go forward successfully in Alberta and British Columbia and the Lake Superior region, all practicable means of cheapening the work must be favored by the Government and the promoter.

The Presbytery of Calgary.

At the special meeting of the Presbytery of Calgary held Wednesday, there were present the Rev. Mr. Herdman, moderator, Rev. A. J. McLeod, Banff; Rev. Angus Robertson, Donald, B. C.; Mr. A. McBride, representative elder from Knox church, Calgary; Mr. R. A. Munro, of Pine Creek, a candidate for ordination. Mr. Munro was examined on the prescribed subjects— theology, church history, Biblical interpretation, Greek and Hebrew, along with the homilies and other discourses on theological topics. The result being satisfactory, arrangements were made for Mr. Munro's ordination at a public meeting in the evening. Reports from the missionaries in the Presbytery as to the condition of their field of labor were received and considered. Mr. Norman Lindsay, student, was appointed to take charge of the field along the C. P. R. from Dunmore to Kananaskis. A call from Medicine Hat, signed by 34 communicants and 20 adherents, in favor of Rev. Jas. Herald as pastor, was sustained by the Presbytery, and forwarded to Mr. Herald for his acceptance. Conditional on his acceptance the induction services were fixed for the second Wednesday in January, to be participated in by Rev. C. E. Killop, Rev. Dr. Robertson, Superintendent of Missions, and Rev. R. A. Munro. At the evening public meeting the questions appointed to be put to candidates for ordination were asked of Mr. Munro by Rev. Mr. Herdman. Interesting addresses were delivered by Rev. Mr. Robertson on home missions, and Rev. A. J. McLeod on the Foreign missions of the Presbyterian Church of Canada; the services concluding with prayer and the benediction by Rev. Mr. Leach, of the Methodist church, who was present in the audience.

The New School.

It having been found necessary to relieve the pressure on the central school, where one lady teacher was obliged to handle 113 pupils, the trustees engaged the basement of the Presbyterian Church and employed Miss Brown to teach some fifty three of the youngest of the scholars. At nine Friday morning Miss Brown was surrounded by several score of bright, noisy children, all apparently anxious to be on friendly terms with their new in-

structor. Today will be a day of preparation and classification and the real work of the school will commence on Monday. The basement is large and lofty but the light is not all that is desirable. Special attention will have to be given to the heating arrangements during the winter months. Only ordinary chairs have been supplied, but it is presumed that proper school desks will be promptly forthcoming. Miss Brown, we understand, has followed her profession for three years in Ontario and is a very capable teacher.

In the Supreme Court

OF THE
North West Territories.

Northern Alberta Judicial District.

Between the Governor and Company of Adventurers of England trading into Hudson's Bay, Plaintiffs.

AND
HENRY DRURY,
Defendant.

Upon the application of the plaintiff, and upon reading the writ of summons and statement of claim herein, and the affidavits of Fredrick W. Herdman and Nicholas D. Beck this day filed, and it appearing that prompt personal service upon the defendant of the said writ of summons and statement of claim cannot be effected.

I do order that service of a copy of this Order and of a copy of the said Writ and a copy of the said statement of claim by posting such copies up in the office of the Clerk of this Court at Calgary, and upon the door of the dwelling house or other conspicuous part of the premises in question herein, and by publishing this order in the Calgary Weekly Herald in four consecutive issues, shall be good and sufficient service of the said writ and statement of claim upon the defendant Henry Drury.

Dated at Chambers this sixteenth day of November

Our Boards are Gang Sawn and are very even in thickness.

We saw our Lumber to width, thickness and length.

We are prepared, at all times, during running season, to cut bills to order on short notice in any length and class up to 26 feet.

Our Lath is all butted after they are bundled, and we all four feet in length.

We have in stock about 1,000,000 feet of dry Boards and Dimension, including 4 and 6 in. strips for Flooring and Siding.

THE WEEK'S LOCAL NEWS

Dinner to Mr. Hanson.

At a meeting of friends of W. T. Hanson, Esq., held in the Royal yesterday, it was decided to entertain him at a dinner before his departure from Calgary, and committees were appointed to carry out a liberal programme. The day will be named after Mr. Hanson's wishes in the matter have been ascertained, but it will probably be before he leaves.

The Manufacturers' Life.

Mr. William Scott, of Winnipeg, agent for the Northwest Territories and British Columbia for the Manufacturers' Life Insurance Company, is at the Royal. Mr. Scott is rushing business for all it is worth. In the past three weeks he has taken \$150,000 in policies between Kamloops and Calgary. Since Wednesday at 2 p. m. he has booked \$32,000.

A Choice Instrument.

The vestry of the Church of the Redeemer, at a meeting held yesterday, decided to purchase a vocalion at a cost of \$700. The instrument to be in place before Christmas. The sale has been made by Mr. H. W. Clarke, who sold another of the instruments a few days ago to go to Edmonton. Mr. Clarke is the sole agent for the Northwest.

That Railway Accident.

There has been a good deal of talk about a settlement on the C.P.R. at Donalda on Saturday, but it appears that no body was injured and no rolling stock was destroyed. A baggage and mail car for the rails at a point two miles west of Donalda, where a transfer of passengers became necessary. There has been some detention of trains bound east and west, but no damage of any kind has been sustained.

Appealing.

In connection with the prosecution of certain parties for being keepers of houses of ill-fame, we understand that an appeal has been taken at the instance of two of the women, against the judgment of Justices King and Thompson. It will scarcely be reached before the April session of the court. The matter is in the hands of Messrs. Loughheed, McCarthy & Beck.

The Mounted Police.

The telegraph announces that the Mounted Police department has been transferred to Sir John's new department, that of Railways. The announcement has no special significance so far as the force is concerned. It merely means that the Premier keeps the control of the force in his own hands. It indicates, however, that the Premier has taken the Railway department permanently.

Colonel Herchmer.

General regret is expressed in Calgary over the announcement that Col. Herchmer has been ordered to remove from Calgary to Fort McLeod for the winter. It is presumed that the interests of the force require this change, but the disappointment of Calgarians is not less keen on that account. The Colonel has been able successfully to combine the efficient discharge of semi-military duties with the maintenance of cordial relations with the civilian element of Northwest society. He will be greatly missed in Calgary.

The Agricultural Society.

At a meeting of the board of the Agricultural Society on Saturday, the directors took up the question of an Experimental Tree Farm, as suggested for Alberta by Professor Saunders, of the Department of Agriculture, and resolved to communicate with the Government at Ottawa with a view to securing such an institution here. The subject of seed grains being discussed, as it was considered desirable to renew the seed in this section of the country by bringing in new kinds, the directors decided to memorialize the Government on this matter.

The Alberta.

H. A. Perley, Esq., lessee of the Alberta, is in town and will remain for a day or two. The furniture has all arrived. Mr. Perley will go west for his family presently, and on his return will take up his residence in Calgary. Our townspeople will give him a hearty welcome. The hotel will be ready for customers in a week or ten days, with all its appointments perfect, and it will have in Mr. Perley the most successful hotel manager in the Northwest.

Before Judge Rouleau.

The case of the Queen against Joseph Lirondelle, for driving off horses; appeal from magistrate, allowed; conviction quashed. The other appeals—the Queen vs. McNeil, Queen vs. McClelland, Queen vs. Krohan & Seabury—all appeals against liquor convictions, were taken up and argued this afternoon. Smith & West for McNeil and McClelland; Mr. Bown for Krohan & Seabury; Mr. Davis for the towns. Judgment reserved. In Morrison vs. the Quorn Rancho, and Morrison vs. Miller, it is stated that the parties are arranging a settlement.

The Supreme Court.

In the case of Munro vs. the Sheep Creek Ranch Co., the evidence of Mr. C. W. Martin of the Quorn Ranch Co., successors to the Sheep Creek Co., was taken by consent in chambers, as Mr. Martin is about to leave for England. Mr. T. C. West appeared for Mr. Munro and Mr. Longneest for the Company.

In Chambers re Fulton, *Baker v. Hanson*—Application by I. G. Baker & Co., execution creditors of George Hanson, for the administration by the court of Hanson's estate, as Fulton, the assignee of the estate, had neglected to act within a reasonable time. Order granted for the administration by the court. Mr. P. McCarthy for the execution creditors. Mr. T. C. West for the assignee of the estate and defendant.

General Strange.

General T. B. Strange arrived this morning from England and will remain for a day or two. The general is on a visit to his son and expects soon to return to England. A representative of THE HERALD, in conversation with the General relative to his visit to Australia, learned that the people of New Zealand and the Australian colonies are anxious for the extension of trade relations with Canada; and that they take a deep interest, for commercial reasons, in the establishment of steamship and cable communication with Canada. We gather from General Strange's remarks that there was disappointment in the Australasian colonies over the recent failure of the Canadian Commission. Mr. Abbott, to proceed to Australia. General Strange is looking well and is apparently in excellent spirits.

G.C. KING & CO.

The Revelstoke Smelter.

Dr. Campbell, of the Revelstoke smelting works, is in town and staying at the Royal. Dr. C. reports his smelter in complete running order and waiting for ore. Two car loads of silver and lead ore have been received from the Dunvegan mine and sampled, and found of good quality, but the smelter will not in all probability commence operations until a continuous supply of ore is in sight. Works of this extensive character can not be set in motion and stopped every few weeks. Once going they must continue, if they are to be profitably worked. The ore now at the works was purchased by Dr. Campbell himself in order to make a start and test the smelter. It is believed that by the spring there will be a supply of ore to warrant the smelter commencing operations. As it will need a great deal of coke, owners of coal mines would do well to communicate with Dr. Campbell.

Confirmation Needed.

It cannot be true that the Sheriff of Alberta and two of the Mounted Police arrived in Winnipeg on Thursday with a juvenile prisoner from Calgary. The Winnipeg telegraphic correspondent must be indulging in a little fun at the expense of our officials. The prisoner was only a boy, whom one officer might safely account for. It is absurd to say that three able-bodied men were needed to take young Ringer to the penitentiary. This is surely a false report. Intended to bring the administration of justice in the Territories into contempt. Then, again, unless the Canadian Pacific and its dining cars and restaurants and the Winnipeg hotels are all given to dead heading the officers of the law, the expense of the trip must have been away up among the hundreds. If Ringer is a second Jesse James, demanding the services of a detachment of the N. W. M. P. to keep the young desperado in check, people here are not aware of the fact. On the whole, then, we reject the telegraphed statements and await an authorized account of the expedition.

Should Be Amended.

On Friday, under a city by-law, a cow and her calf and a heifer which, in a moment of insanity, had strayed into Calgary and had been impounded, were sold by public auction. The cow and calf brought thirty dollars, and the heifer twenty dollars; total fifty dollars. It is said that the animals went cheaply, but on this point we can express no opinion.

It was a singular coincidence that the cost of stabling, pound keeping fees, advertising and auctioneer's fees amounted to just fifty dollars; so that the costs out up the cattle. Everything, in brief, was done strictly according to law. The animals had been impounded some twenty days, and although we boast in Alberta of the cheapness with which cattle are raised, these twenty days appear to have been exceedingly costly days of feeding in this instance. The town by-law permits 75 cents per day to be charged for the keep of impounded cattle—a charge which, we understand, was fixed by a blunder in the drafting of the by-law. There is no fault to be found with anybody in this particular instance, but it is to be hoped that similar results will be avoided in the future. An amendment of the by-law is imperatively called for in the interests of justice and fair play.

The Midsnapre Woolen Mill.

Mr. Shaw's letter from Midsnapre will be read with interest, and only so is factious will be expressed at the communication of its contents. We learn from it that his woolen mill will be in operation in a few days and that "Alberta can have blankets, flannel, tweed or yarn of our own wool, if he desires it." The people will probably desire it. There is a growing feeling in Alberta in favor of establishing and sustaining home industries which should be of value to Mr. Shaw and his enterprise.

Pine Creek.

The opening lecture of the Pine Creek Men's Mutual Improvement Society was given by the Rev. J. C. Herdman, of Calgary, on the 2nd inst. There was a very good attendance; and all speak in high terms of the lecture. A vote of thanks was tendered the lecturer.

Mr. Munro desires to express his thanks for the unsolicited offer of a donation towards the founding of a library, on the part of their Honorary President, Mr. Amos Rowe; and in this connection would be pleased to have either books or better, the wherewithal to get them, from those interested in the literary society of Pine Creek. As the society is under-estimated, it is deserving of help.

On the 9th inst. the very interesting entertainment entitled the "Hat Night" was to take place. This device is meant as an encouragement to those who, owing to bashfulness, have a natural hesitancy to speak in public. The meeting was expected to be a success.

Mr. Jean Owen's store is fast drawing towards completion; and will be ready for the great event of the season—the "bazaar" ball. The tailoring business would, unless the evening dresses have been imported, be a lucrative one just now in Calgary.

Opening of the St. C. Church Sunday.

The new Roman Catholic Church was opened Sunday with a considerable amount of color. Many Protestants joined the large congregations of Catholics for the service, which was so many and imposing. In the morning high mass was sung by Rev. Father Leduc, O. M. I., assisted by Rev. Mr. LeClere of Montreal as deacon and Rev. Father Ducrest, O. M. I., as sub-deacon, the mass being preceded by the ceremonies and service prescribed for the opening of new churches. The sermon was by Father Andre, his subject being "The Priesthood." The leaders of the choir, Dr. Rouleau and Mrs. Fennan, acquitted themselves most creditably, assisted by Professor Bagley and Mr. Bayle of the Mounted Police orchestra. Mr. Curley being the organist. At the offertory "Land a Lion," by Lambillotte, was sung; at the elevation, the Benedictus, and at the Communion O Salutaris. At 3:30 p.m. the congregation assembled in the old church, when Father Leduc (this being the silver jubilee of his priesthood) was presented, on behalf of the whole congregation, with an address in French and English, and also by the Sodality of the Children of Mary, on behalf of themselves and the young women of the congregation, with an address, accompanied by a monstrosity handsomely mounted and quite costly. At Vespers, the Gregorian Vespers, appointed for the Feast of the Immaculate Conception, were sung by Rev. Father Leduc, during which Lambillotte's "Magnificat" was rendered by the choir. The sermon was given by Rev. Father Blais, subject, "The perpetuity and indestructibility of the Church." After the sermon the organ played a beautiful piece of music. During the service of benediction the choir rendered "Dante's Requiem," by George, and at the conclusion the Te Deum. The singing of the Father Vaudouin, of Macleod, during the service was especially admired. The clergy were arrayed in rich robes in all the services, and the proceedings as a whole were exceedingly impressive. The attendance in the evening was particularly large.

High River Crossing.—Mr. Finlay, Mr. Short, Mr. Spalding and Mr. Murray have been appointed managers of this Presbyterian Station.
